

2026 Catalyst Grants

In 2026, we awarded \$900,000 in grants to 18 organizations from our newly launched Catalyst Grant Program. The program, designed to help nonprofits reach the next level of operational, programmatic, financial, or organizational maturity, provides each recipient with a \$50,000 grant over a three-year period. Leaders from each nonprofit will also participate in a peer-led cohort facilitated by Foundation staff to share information, group problem-solve, encourage collaboration, and strengthen their individual and collective impact. The program will also provide technical assistance and outside resources tailored to specific needs and goals identified by the group.
